Installation Instructions for

Square and Round Flat Trims for 4” Element

**GENERAL PRODUCT INFORMATION:**
This product is suitable for indoor locations.

**Preparation for Installation**

1. The pre-installed springs are intended for ceiling thicknesses from 1/2” to 3/4”. Skip to section 2 if the ceiling thickness is 1/2” to 3/4”.

2. For ceiling thicknesses from 3/4” to 1”, follow the rest of this section to replace the trim springs.

3. Replace the pre-installed spring connectors by removing the spring screws.

4. Install the large spring connectors and secure them by reinstalling the spring screws.
**Install the Trim**

1. Align the trim spring connectors with the inner edge of the housing.

2. Gently push the trim into the housing so that the four spring connectors snap into place.

**NOTE:** For flangeless trims, the spring connectors on the trim snap into the plaster plate.
